

Bookworms – this is what we planted in 2016 ...

Planter 1

- Night-Flowering Catchfly
- Lemon Balm All Gold
- Blue Borage
- Bergamot
- Golden Thyme
- Violas
- Thyme Silver Posy

We chose a mix of herbs and native flowers for the first planter. Borage flowers, as well as attracting bees, are an excellent addition to a summer cocktail. Bergamot flowers make refreshing tea.

Red Tub

- Strawberry Calypso
- Thyme Silver Queen
- Blue Aubrietia

Planter 2

- Mullein
- Echinacea Tomato Soup
- Tagetes Starfire

Bookworms wanted the second planter to have lots of orange and red flowers
